

If there is a law that is positive for the people, like this "Do Not Call" Law and has been created by the state of NJ and doesn't hinder any other states in its creation then let us be. NJ has been taken advantage of in so many ways so please let NJ do what it needs to do, especially when we have an ACTING GOVERNOR that ACTUALLY seems to CARE for the people of NJ! Do you realize NJ has not had that in over 15 years? Isn't it about time to back the Acting Governor and allow him to do what he needs to. I support him and live in NJ. I support the NJ "Do Not Call"!
